

ERASMUS+ – European Voluntary Service

Project Title: “CAnVAS 4”

Project dates

September 1st, 2018 till August 1st, 2019 (11 months)

Who we are

The “Agios Vlasios” Chronical Diseases Infirmary is an elder care center that aims to offer treatment, affection and care to people of both sexes with priority those suffering with chronicle illnesses.

Working environment

The working facilities are modern inside the hospitable 3-floor building with comfortable sitting and refreshing room. There is a seminar room with capacity of 200 seats. It is also used as an indoor group activities’ room. There is the restaurant and a conservatory accessed from all rooms. There are 34 rooms divided between the 2 floors with view to the gardens and to the mountains. The Infirmary operates in 3 shifts a day but volunteers work only in morning shift on weekdays.

Accommodation

Volunteers’ accommodation is organized in a multi-room rented apartment (1 person per room), with fully equipped kitchen, bathroom, hallway, common sitting room located in Levadia city. Maximum of three persons per apartment are allowed. No bedroom sharing is allowed.

Food

Food is provided at the Infirmary's facilities cooked by professional cooks everyday. Volunteers take lunch at Infirmary and dinner as take away food from the Infirmary. For weekends and breakfast a food allowance is given in exchange of food receipts proving that the allowance was spent.

Transportation

Volunteers’ transportation is arranged on a daily basis by the use of the Infirmary’s minibus who drives them from and to work.

Volunteers’ tasks

The proposed voluntary services in the Chronical Diseases Infirmary for elderly persons include:

- a) Voluntary service will follow the daily program of the Infirmary with the personal care of the elderly such as facial cleaning and beauty, serving water and food, walking them around the Infirmary.
- b) Voluntary service with weekly creative activities for the elderly such as handicrafts, physical education, music, communication, free time entertainment and walking companion to the city, through individual and group activities.
- c) Voluntary service on planning, organizing and implementing activities with similar institutions from abroad in the frame of various European and World programmes. Creation and moderation of a webpage, design of a leaflet and organize an information/dissemination event for publicity and organize public events.

Finally, volunteers will learn how to apply practical techniques for all mentioned works and will acquire knowledge and skills in social services.
